ELECTRICAL REVIEW

JULY 4 TO DECEMBER 26, 1903

Articles marked * are illustrated; (E) indicates "Editorial;" (P) indicates notes under "Recent Electrical Patents;" (R) indicates "Review of Current Engineering Literature."

A

Acceleration of steam locomotives (R). 787
Accumulator cars in Wales..... 184
Address to the engineering section of the British Association for the Advancement of Science, by Charles Hawkesley 556
Administration buildings at the St. Louis Exposition*..... 660
Advantages of steam turbines for textile mills, by Austin Dodge*..... 532
Advisory committee of the building fund of the American Institute of Electrical Engineers..... 699
Air friction..... 589
Alcohol from acetylene..... 228
Alternating-current motors for variable speed, by W. I. Slichter..... 50
Alternating currents, new material for simple (R)..... 126
Alternating currents, the production and distribution of, for large city systems, by Richard McCulloch*..... 350
Alternator, a remarkable, by E. Guarini* 359
Aluminum as an electrical conductor, the use of, by J. B. C. Kershaw..... 470
Aluminum conductors for electric transmission lines (R)..... 413
American Association for the Advancement of Science..... 943
American Electrochemical Society, exhibit of the.....146, 189, 316, 327
American Electrotherapeutic Association 256
American Institute of Electrical Engineers..224, 445, 478, 523, 632, 659, 717, 784, 938, 940
American Society for Testing Materials, the 50
American Street Railway Association, the convention of the (E)..306, 332, 756
American Telegraphers' Tournament Association 490
Anglo-Belgian telephone cable, the..... 96
Animal mechanics and motor vehicle designs 617
Anniversary of the death of William Gilbert 927
Annual meeting of the Electrical Trades' Society of New York.....819, 875
Annual meeting of the Indiana Electrical Association 521
Annual report of the Meriden Railroad Company 562
Annual report of the United States Commissioner of Education..... 819
Annual report of the Western Union Telegraph Company, the..... 605
Anti-hunting device (P)*..... 905
Arc lamp, new type (P)*..... 788
Are dynamos ill-tempered? (E)..... 462
Arrangement for operating electric fans (P)* 905
Artificial Niagara at St. Louis..... 491
Asymmetry of a mercury break (R)..... 412
Asynchronous motors, measurement of the efficiency of (R)..... 22
Automatic control of electric cars..... 195
Automatic regulator for electric generators (P)*..... 125
Automobile blue book, official..... 224
Automobile cars for railways..... 639
Automobile industry in Great Britain, the 739
Automobile record, a new..... 182
Auto record, a new..... 699
Auvert train lighting system (R)..... 329

B

Ball bearings for electric motors..... 83
Baltimore & Ohio Railroad, new electric locomotive for*..... 254
Basis for the comparison of dynamo design, a (R)..... 484
Bath electric tramways, England..... 86
Bearings for electric meters (P)*..... 229
Behavior of a red colloidal gold solution toward an electric current (R)..... 869
Berlin, cheap electric light for..... 220
Berlin-Zossen high-speed railway, latest development on, by Frank C. Perkins* 767
Best conditions for refining copper (E). 498
Boehm train lighting system, the (R).. 524
Boma-Leopoldville and Leopoldville-Equateur telegraph line (R)..... 942

Book Reviews.

"A Few Remarks."..... 56
Alternating-Current Transformer... 192
American Street Railway Investments 56
American Telegraphy, and Encyclopædia, of the Telegraph..... 717
Arithmetic of Electricity..... 876
Care and Handling of Electric Plants 908
Continuous-Current Dynamos and Motors 402
Cours d'Electricite..... 876
Electrical Engineering..... 451
Electrical Engineering Measuring Instruments 669
Electrical Engineers' Pocketbook... 876
Electrical Influence Machines..... 231
Electric Toy Making..... 876
Engineering Preliminaries for an Interurban Electric Railway..... 624
Fowler's Mechanical Engineers' Pocketbook 738
Friction and Lubrication..... 785
Home Mechanics for Amateurs..... 785
Radium 192
Secondary Batteries..... 192
Telephony 128
The Practical Application of the Rœntgen Ray in Therapeutics and Diagnosis 402
Whittaker's Electrical Engineers' Pocketbook 738, 876
Wireless Telegraphy..... 876
Booster controllers (P)..... 20
Braking tests of cars and automobiles.. 866
Breakdowns of electrical machinery.... 521
Brick, the manufacture of..... 277
British engineering standards committee 188
British Institution of Electrical Engineers 900
British Institution of Electrical Engineers, journal of the..... 184
British light railway system, a*..... 41
British patent record for the year 1902.. 157
British standards in electrical engineering (E)..... 727
Brooklyn Engineers' Club, eighth annual dinner of the..... 940
Brooklyn Institute of Arts and Sciences. 469
Brooklyn Rapid Transit men to receive instruction in electrical engineering 560
Brooklyn Rapid Transit Company makes changes in its transfer system..... 808
Brown-Boveri-Parsons turbo-generators (R) 868
Brussels, Belgium, electrical installation of the city of, by Enrico Bignami*. 221
Brussels, Belgium, tramways, the central station of the, by Emile Guarini*.. 688
Brussels electric tramways, the (R).... 158

C

Cable laying in Manila and a trip around the world, by Lewis G. Martin*..... 700
Cables, two simple methods of locating faults in, by Edwin F. Northrup*... 278
Calcutta, India, the electric supply of (R) 942
California installations, some typical, by J. H. Rusby*..... 77
Canadian Society of Civil Engineers....663, 687, 892
Capacity of a Geissler tube in a magnetic field, the (R)..... 787
Cape Town industrial exhibition..... 780
Carbides, by Alex. A. Beadle..... 851
Castings, electric process of making.... 62
Cathode-ray alternating-current wave indicator, by Harris J. Ryan*.....176, 225
Cause of the earth's magnetism, the (R) 484
Central electric power stations for gold mines 308
Central London Railway, new motor cars of the..... 330
Central station auxiliary plant (R).... 669
Central station battery, the (R)..... 713
Central station of the Brussels, Belgium, tramways, by Emile Guarini*..... 688
Chelsea generating station (R)..... 262
Chemical valency, electrical conductivity and hardness of metals (R)..... 600
Chicago Telephone Company opens new branch exchange..... 629
Chlorine smelting with electrolysis*.... 194
Chromite in 1902, production of..... 224
City and interurban system of the Schenectady Railway Company*..... 280
Clamping device for holding electric metal-working machines (P)*..... 289
Coal-handling machinery driven by electric motors, by D. A. Willey*..... 394
Coal storage under water..... 808
Coating for glass or fabrics (P)*..... 819
Coherer for wireless telegraph system, a new (P)*..... 748
Coherers for wireless telegraphy..... 263
Coherers, new properties of (R)..... 328
Colliery exhibition, the, by Sydney F. Walker 228
Colorado Electric Light, Power and Railway Association..... 686
Combined use of alternating and direct current for central station work, the, by F. C. Caldwell..... 781
Commencement time (E)..... 305
Commercial vehicle contest..... 216
Committee of the American Institute of Electrical Engineers appointed to prepare an exhibit for St. Louis fair 360
Committee on photometric value of arc lamps. A correction..... 807
Committee on steam turbines of the National Electric Light Association 907
Commutating alternating-current motors (E) 920
Commutator, a new (P)..... 864
Comparative behavior of floating and booster-controlled batteries on fluctuating loads, by Lamar Lyndon.770, 815
Comparison formulæ for dynamo electric machines (R)..... 751
Compensation and compounding of alternating-current generators (R)... 712
Compensation of asynchronous motors (R) 443
Composition of matter for battery electrolyte (P)..... 483
Concerning wireless telegraph transmitters (R)..... 907
Conditions governing the rise of temperature of electric railway motors in service, by Dr. C. T. Hutchinson 656, 695
Conductivity of mercury vapor, by Peter Cooper Hewitt*..... 902
Congress of Applied Chemistry, fifth international, by J. B. C. Kershaw.. 80
Conservatism desirable in electrical applications (E)..... 799
Consolidation of electric light companies in Milan..... 826
Contact-maker for electric signs (P)*.. 631
Contact voltages..... 703
Controller for electric hoists (P)*..... 93
Control of electric motors, a new system for the (P)*..... 864
